## LOCAL MATTERS.

DEATH OF AN OLD CHARLESTON MERCHANT .-We are pained to announce the death of Mr. George Robertson, one of the oldest cotton merchants in the city. He was known and honored in his life time, and his death has created a void that cannot be easily forgotten.

THE BATH PAPER MILL .-- This valuable paper mill, situate between Aiken and Augusta, in a most advantageous locality, was sold at Augusta on Thursday last for \$45,000 cash, and was purchased by Mr. Craig.

THE SHELL ROAD .- The preliminaries are now completed and the ground will be broken on Monday morning. Mr. Yocum, the contractor, has made every preparation, and the work will be commenced at Spring-street, the city terminus. The city engineer will establish the proper grades and exercise a general supervision over that portion of the work.

THE YOUNG MEN'S CHRISTIAN ASSOCIATION. The discourse before this association, which was postponed last Sunday on account of the indisposition of the Rev. Dr. Dana, will be delivered to-morrow evening by that divine, in the Wentworth-street Lutheran Church (Mr. Bowman's). The reputation of Mr. Dana as a pulpit orator should attract a large audience. and an invitation is cordially extended to the community to be present.

THE FIREMAN'S BALL .- Those who are looking Hook and Ladder Company No. 2 chassez around the corners and balance to partners. must not forget that the event takes place on Monday evening next. A large gathering will probably be in attendance, and the affair will doubtless be a handsome termination of the the hour of adjournment, and were dismisse anniversary of the Department.

DULL.—The business down town yesterday was unquestionably worthy of the above adjective. There are few merchants in the city from the interior, and these are buying lightly. Business men are like the ruling prices of many of their articles-flat. There are a few who continue to deal in cotton, and take the slim chances of speculation, but transactions were generally light.

SUNDAY SCHOOL CELEBRATION .- The anniversary exercises of the Trinity Church Sun day School, which were postponed last Sunday, will be celebrated to-morrow morning at 101 o'clock. A sermon appropriate to the occasion, will be delivered by the Rev. Samuel Leard, agent of the South Carolina Conference. The singing will be conducted by the children. There will also be a Sunday School celebration at Bethel Church.

TO MAKE A CANDLE BURN ALL NIGHT .- We remember seeing some years since, in an agricultural work, now out of print, an article on "economy of candles," which may be new and useful to many of our readers. When, as in cases of sickness, a dull light is wished, or when matches are mislaid, put finely powdered salt on the candle till it reaches the black part of the wick. In this way a mild and a steady light may be kept through the night, by a small piece of candle.

THE VERACIOUS Charleston correspondent of Forney's Washington Chronicle writes: "The Governor will be inaugurated on the 12th of May, at which time the Legislature will assemble. Pursuant to the constitution, United States Senators will be elected on the 16th of May. Dr. A. G. Mackey, president of the lete Constitutional Constitution of the lete Constit late Constitutional Convention, will leave the city for Washington on next Saturday, in order to deliver to the President of the United States an engrossed copy of the constitution which has just been ratified."

THE COMING FAIR which is to be given by the Sisters of Mercy, promises to be not only the argest but the best of its kind. The gentlemen who are the prime movers in the matter met at the Hibercian Hall last night, and appointed committees who will have the superintendence of the whole matter. From the interest already shown by many of the friends of the Fair, both young and old, it is fair to presume that it will be a big affair, and one of the most attractive that has been held since the

ALONG THE WHARVES .- The spirit of improvement is at work along the wharves. Most of these have already been put in repair, and the hum and bustle of business may be heard from morning to night among the stevedores, seamen, factors and cotton merchants, who do business on the great deep. Such of the wharves as require repairs are steadily undergoing that process, and probably before the end of the year there will not be a foot of the water front of Charleston along the Bay unprepared to accommodate the shipping of the port.

CROPS IN KERSHAW .- The Camden Journal says: "For the past two weeks there has scarcely a day passed without rain-the conquence is, that the earth has become so saturated with water as to completely check the farmers on the uplands in their operations, and thrown them very far behind hand in planting, while the heavy overflow of the river on the lowlands makes it necessary for all the work heretofore done on them to be gone over again. The fruit has not been injured percepvery abundant yield. We hear, also, that wheat is very promising."

MUSIC ON THE BATTERY .- Another in the series of out-door promenade concerts by the Post Band will take place this afternoon, commencing as usual at 5 o'clock. The following is the programme:

1. March from Donizetti's Opera, Gemma - de Vergy.

2. Duettius from Limnander's Opera, Les

Montenegriens.
3. Waltz, Fruhlingslieder.

4. Selections from Martha.

5. Quadrille, Charleston. 6. Serenade, Last Greeting. 7. Gallop, Gettysburg.

All the City Railway cars will run to the Battery, commencing at 4 o'clock from the upper

terminus, and continue until 7.30 P. M. THE FIREMEN'S PARADE.—The approach of this important event has caused a deal of activity in the Fire Department, and the members of the different companies have been busily engaged in testing their machines, and putting them in perfect order for the contest. The sound of the whistle and the puffing of the machine are now tamiliar sounds, and the streets in which the practicing is performed have the dust effectually laid by the heavy streams of water that are daily thrown by the energetic nah, Ga.; Wm. Coppinger, Washington, D. C.; firemen. The platform on which the trial is to be made was laid yesterday evening in Broad-street, by Mr. Patterson, and will be put in perfect order to-day. The lumber and material used are the same as heretofore employed; the authorities having thoughtfully stored

the same in the guardhouse yard.

MAYOR'S COURT.—The proceedings yesterday were unimportant.

A colored man, who trespassed on certain premises, and tore some planks from a fence, was sent to the workhouse for twenty days to learn good manners. Several parties, who were charged with mis-

demeanors, were referred to a magistrate.

DISTRICT COURT-HON. GEORGE W. LOGAN, PRESIDING .- The case of John and Mary Madden, for an attempt to commit arson. H. W. Seymour and M. P. O'Connor conducted the defence. Attorney-General Hayne spoke for the State. The jury were charged, and at a late hour returned with a verdict of guilty as Madden.

BEYAN, PRESIDING .- An application for surrender of bail in the case of Joseph Taylor, bail for the defendant in the case of Kirtland, Browning & Co. vs. Lewis Pizer, was presented by W. H. Talley, Esq., and, on his motion, it was ordered that the said bail have leave to surrender his principal to the United States Marshal, and, on such surrender, the said bail will

THE SEA ISLANDS .- We are informed by a Northern gentleman, who is planting in the vicinity of Beaufort, that great despondency prevails throughout that section in regard to the next crop. The colored people are so utterly demoralized that in a general sense they are worthless as tillers of the soil. A few are planting for themselves, and are thrifty and onterprising, but the vast majority spend their time in hunting, fishing and idleness, leaving their wives in true barbarian style to cultivate the little patches of vegetables whereby body and soul are kept together. They steal remorselessly, and refuse to labor under any system of emuneration that has yet been conceived. The consequence is that the once elegant plantations in the neighborhood of Beaufort and on the adjacent islands are rapidly going to decay. Our informant states that the crop of sea island cotton there will be very small, the planters preferring to secure actual subsistence than to trust to the chances of being robbed of everything on which they cannot

personally keep their eyes. PUBLIC IMPROVEMENTS .- Among the many improvements now being perfected in various parts of the city, none are more noticeable than the reconstruction of the sidewalks. The city authorities propose to make a general repair of all broken and dilapidated sidewalks. and if the residents will consent to bear a portion of the costs, a general and thorough regeneration will be inaugurated. It was formerly the practice to assess the property owners for such work, as it was of more importance to them than to the public at large. Only a small contribution is requested, and the sidewalks will be furnished with brick curbs tibly, and the prospect is that there will be a and the imitation asphaltum recently laid on Meeting-street. Mr. Barbot, the City Engineer, contemplates the construction of a machine, which has been already described, that will crush and pulverize the asphaltum and other material used, and reduce it to the consistency of putty, when it can be applied to the sidewalks. The subject is worthy of consideration, and every citizen who desires to see his property improved and the public benefitted, will interest himself in the sidewalk question.

THE SILVER TRUMPET.—The trumpet, which is to constitute the "Firemen's Offering to the Orphans," we observe, has disappeared from its place of exhibition in Mr. Hayden's window, and we thought that it had already been carried off by some fortunate company, but on inquiry we learn that it has only been removed to be replaced by another more appropriate for the purpose. This trumpet, which is to be not only more suitable, but also of a higher value, will make its appearance in a few days, The interest which the Fire Department has manifested in this proposed charitable contest will be greatly increased by reading the following letter to Father Shadler:

Rev. and Dear Sir: I have noticed with much to John Madden, and not guilty as to Mary pleasure that, to aid the Orphan's Fair, you have offered a silver trumpet as a prize for competition between the different fire companies. Please accept, as an addition to the trumpet, a FIRE-MAN'S CAP. It will be ready for delivery on the day of the opening of the Fair. The fireman to whom the cap shall be awarded may return the same after the Fair, when a suitable front will be placed on it. Yours, truly,

F. F. CHAPEAU." But this is not all. Another friend of the orphans, and admirer of the firemen, has presented a third and no less acceptable object, to enhance the already great value of this prize, namely: a handsome brass spanner, of very neat pattern, which will form a useful ornament in the fireman's belt. By the way, this latter article seems to us the only thing wanting to make the fireman's outfit complete. Who will supply it, and what company will carry off the whole? The one that receives the largest number of votes, of course.

NOTICES IN BANKBUPTCY.-Meetings of the creditors of the undermentioned bankrupts, to prove debts and choose assigness, will be held at the office of the Registrar, Hon. R. B. Car-

WHOLESALE CLOTHIERS,

BALTIMONE, February 19th, 1888.

Dr. J. Laurence:

ROSADALIS as a very powerful alterative. I have seen it used in two cases with happy results—one a case of recondary syphilis, in which the patient pronounced himself cured after paving taken five bothes of your medicine; the other a case of scrofula, of long standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have carefully examined the formu-WM. J. RIEMAN & SON. as an area of the formula by which your Rosadalls is made, and find it an excellent compound of alterative ingrelients.

Dr. J. J. Lawrence:

Dean Sim—My youngest daughter, aged five years, has been dreadfully afflicted with Scrofula nearly all her life. I tried a great many physicians, but without relieving her much; in fact most of them said there was no hope of cure. During the last spring she was worse than ever, her body and limbs being covered with sores and blot-hes—with face and eyes badly ulcerated and swollen. Whilst in this condition I was advised by Dr. L. A. Stith to try your Rosadalis. I at once procured three bottles, and commenced giving it to her. The effect was magical. In less than a month, to my great astonishment, she was entirely well.
